

# 20KHomes

## All Hands on Deck

### Quarterly Update

February 27, 2019

# Today's Presenters

Marie Morrison  
Director, 20KHomes

Randalin Ellery  
Data Impact Lead

Jessica Brunet  
Data Advisor

Tim Richter  
President and CEO  
CAEH

Stefania Seccia  
Communications Advisor

# Today's Agenda

- Confirming shared goal
- Campaign progress October 2018-present across the milestones & what to expect coming up next in these areas:
  - ✓ Overall Campaign and community progress
  - ✓ Completing count-up to 20,000 and relaunching
  - ✓ Celebrating and supporting progress with data
  - ✓ By-Name Lists and Coordinated Access Systems
  - ✓ Reducing
- Quick summary of other Campaign activities October-present
- Sneak Peek – what else is coming up over March - June
- Q&A

## Shared Goal

20/20/20

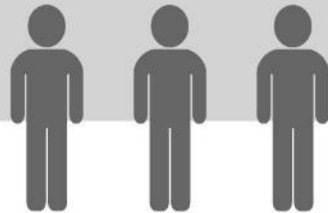

End chronic homelessness in  
20 communities  
and house 20,000 of Canada's  
most vulnerable homeless  
people by July 1, 2020.

## The 20KHomes Definition Functional End to Chronic Homelessness

**3 OR LESS  
CHRONIC  
HOMELESS  
OVER  
3 MONTHS +** = **Functional  
Zero**

[20KHomes Functional Zero  
Q&A Document](#)

[By-Name List & Functional  
Zero Chronic Video](#)

Once functional zero is achieved, communities will work to sustain and reduce to absolute zero and expand to new populations.

# Community Progress on Milestones

MILESTONES

**Progress on  
Counting up to  
20,000**

# Move-in Milestones Reached Over The Last Quarter

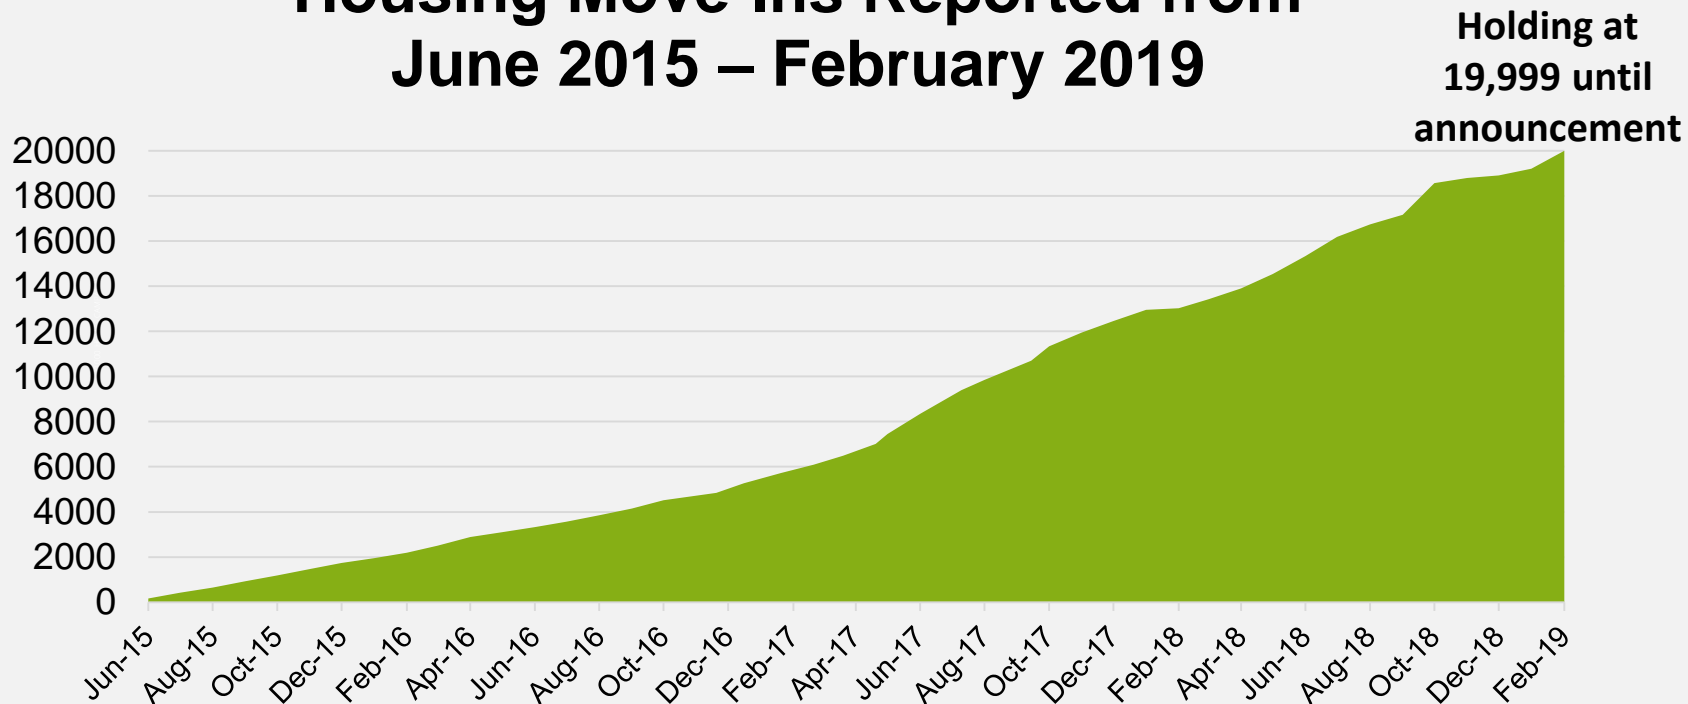

# 19,999

housing move-ins reported by our  
20,000 Homes Campaign communities

# Housing Move-Ins Reported from June 2015 – February 2019

Now that we have reached our “count-up goal” we are going to be fully focussed on counting down...

We're getting ready to launch Built For Zero Canada (BFZ-C)

# We did it!!

Thanks to your excellent work we'll announce the final housing number at our Learning Session on March 6. We'll wrap 20KHomes and launch Built for Zero Canada

The Opening Plenary at the March 6 Learning Session is going to double as a press conference. We want the spotlight on the great work from our communities.

Wrapping up the campaign and launching Built for Zero Canada is an important opportunity to get the word out about your work and build support for ending homelessness.

This means the morning of March 6 is going to be busy—we will be sending out newsletters, emailing our press release and posting across our social media platforms in an effort to get your story and your work trending!

**And we're going to need your help**

# We need your help to get the word out

## We want to take advantage of this opportunity to:

- Build support for BFZ-C (X/#/\$)
- Build support for community efforts (X/#/\$)
- Build public and political support for ending homelessness (X/#/\$)

## To achieve these goals we need your help – volume of messaging is important.

- Promote on social media and (1) highlight local participation (2) mobilize your networks (3) ping influencers (4) promote with politicians
- Send a newsletter to your local networks
- MSM: issue a press release or statement
- Ask Mayor to tweet or issue a statement
- Write a letter to your local MPs, provincial politicians and local council emphasizing local role and asking for support for ending homelessness.

# There's hope in what works

## Our messaging should convey: Hope. Urgency. Impact.

- Ending homelessness is not only possible, it's happening.
- We're accelerating the adoption of proven approaches for rapid impact.
- Be proud to be part of a growing movement that is beginning the end of homelessness in Canada.

# Our Community Communication Toolkit

We have built a toolkit to help can spread the word, including a schedule of when we'll be sending out certain press materials.

**Remember: everything is top secret until 9 a.m. EST March 6!** We will send out a media advisory on Friday and Monday, an embargoed press release to specific media on Tuesday then the full press release early Wednesday morning.

## The Toolkit includes copies of our media materials:

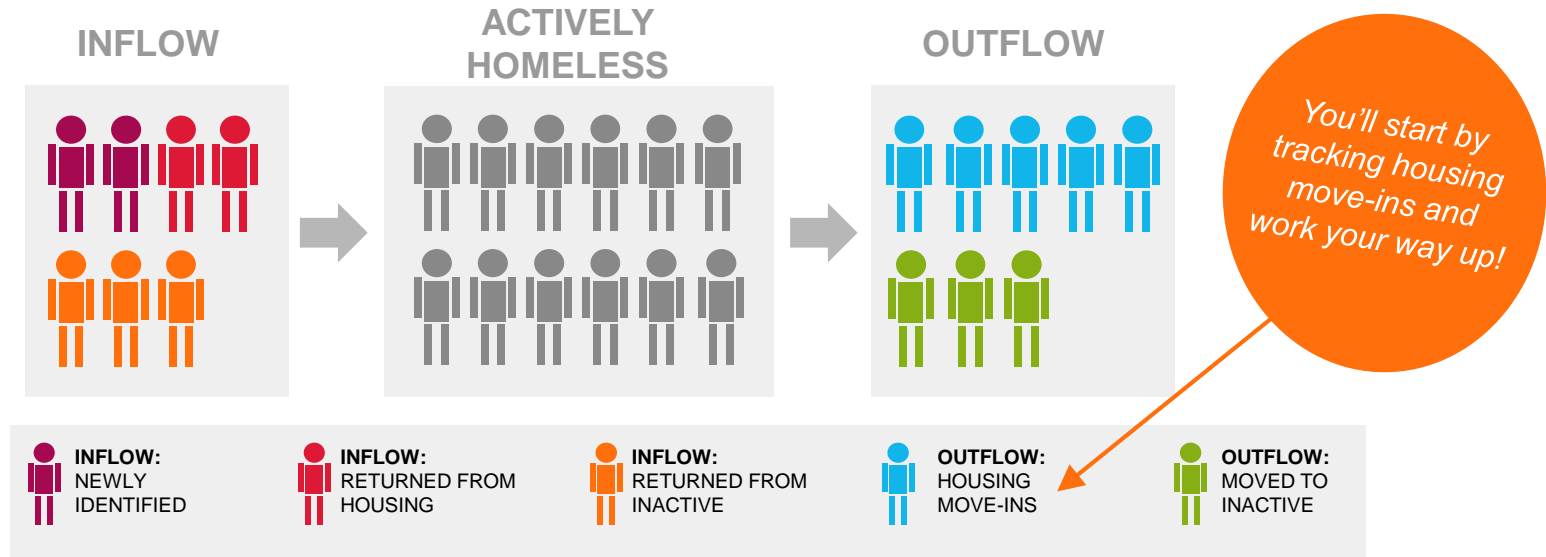

- Fill-in-the-blank press release and a media advisory (sharing on day of release)
- BFZ-C logos, images, social media graphic cards and an email header
- Example Facebook and Twitter posts and a newsletter template
- BFZ-C Backgrounder and Q&A
- An action item/how-to list with all the information you need plus suggestions to help get us trending!

# Celebrating & Supporting Progress with Data

# Monthly Data Submissions

Start by tracking monthly housing move ins. As Canadian communities build a real-time, by-name list, you'll track and respond to a more dynamic picture of your full systems.

Coming Up  
April 2019...

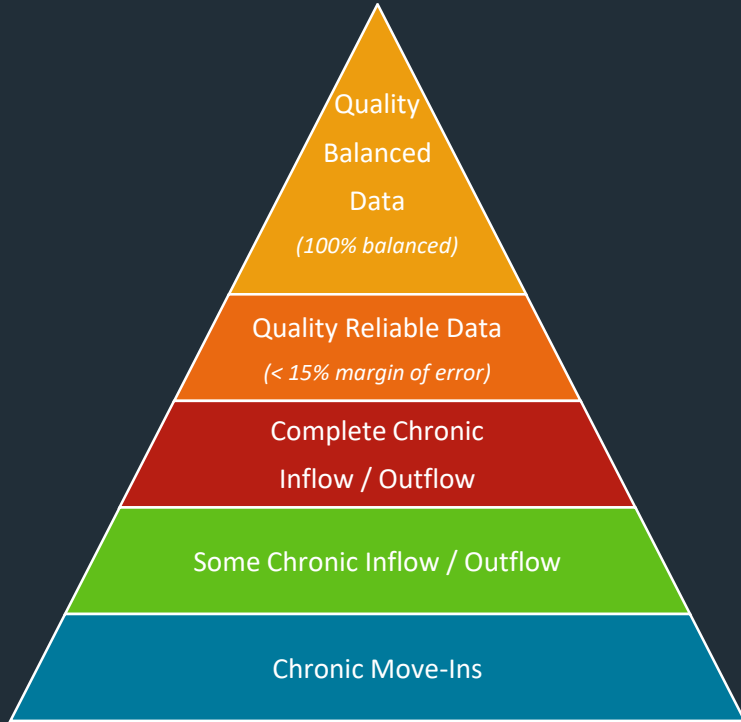

# New Reporting Form:

## April 2019

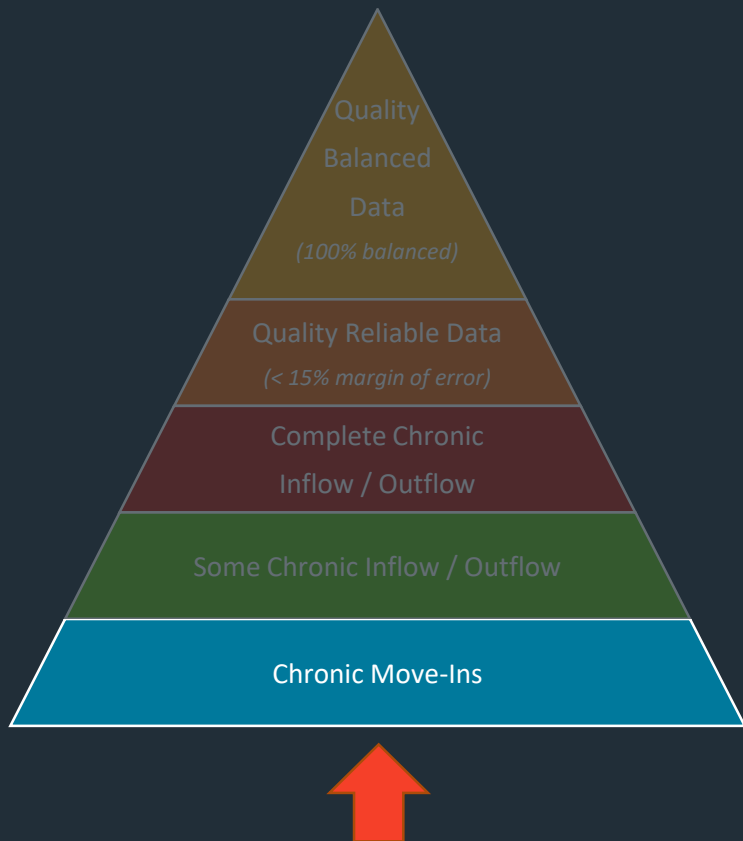

- We are...
  - Scaling back on the number of questions
  - Focusing on chronic data only
- You still can...
  - Collect data that is important to your community and your progress
- In the future...
  - You will have the option to submit other data sets for visualization

# Monthly Reporting Rulers

- Monthly Reporting Rulers is a way for communities to celebrate their progress in reporting data.
- Its purpose is to demonstrate the linear progression of data improvement from the most basic form of reporting (*Chronic Move-Ins*) to the ideal form of reporting (*Quality Balanced Data*).
- In order to move up a level in the pyramid, a community must first have achieved the preceding level(s).
- Communities may achieve multiple titles at once if they have met the definition of each level in the same time period.
  - For example, if a community is able to submit data that meets the definition of *Chronic Move-Ins*, *Some Chronic Inflow / Outflow*, and *Complete Chronic Inflow / Outflow* at the same time, then that community will achieve all three levels at the same time.

# Chronic Move-Ins

## Definition

- Move-Ins means that someone experiencing chronic homelessness has been housed in permanent and/or long term housing. It also means that someone has physically moved into their unit. It does not mean 'matched' or 'lease signed'.
- Data must be chronic only.
- Data does not need to be inclusive of their entire chronic population (i.e. can be program or intake specific).

## Submitting

- Three consecutive months of data submitted meeting this specific definition.
- Data cannot be all zeroes.
- If submitting bulk reports, the report must be split into individual months in order to achieve title.

## Can this title be lost once achieved?

- No, this title cannot be lost.

# Some Chronic Inflow / Outflow

## Definition

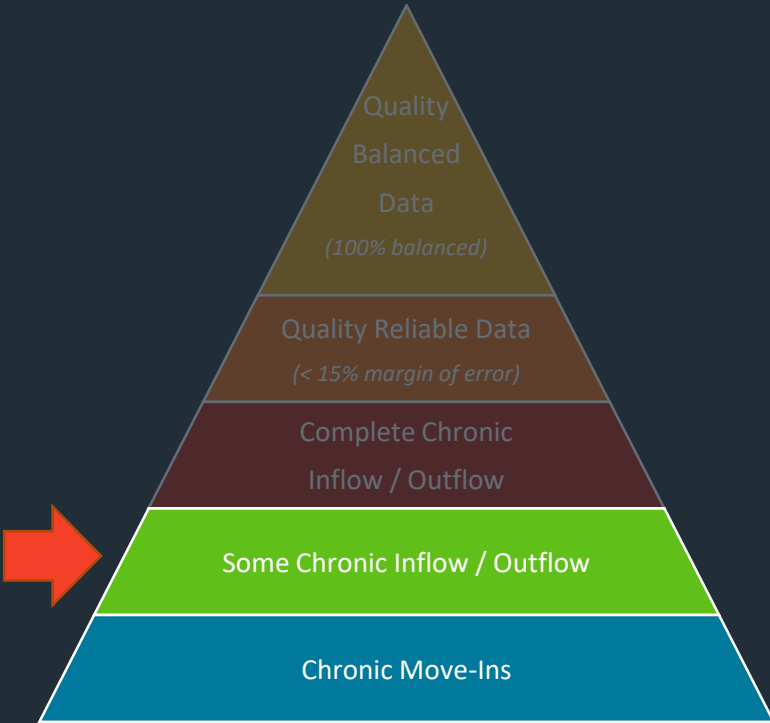

- At least one chronic inflow / outflow data point outside of move-ins must be reported.
- Data must be chronic only.
- Data does not need to be inclusive of their entire chronic population (i.e. can be program or intake specific).

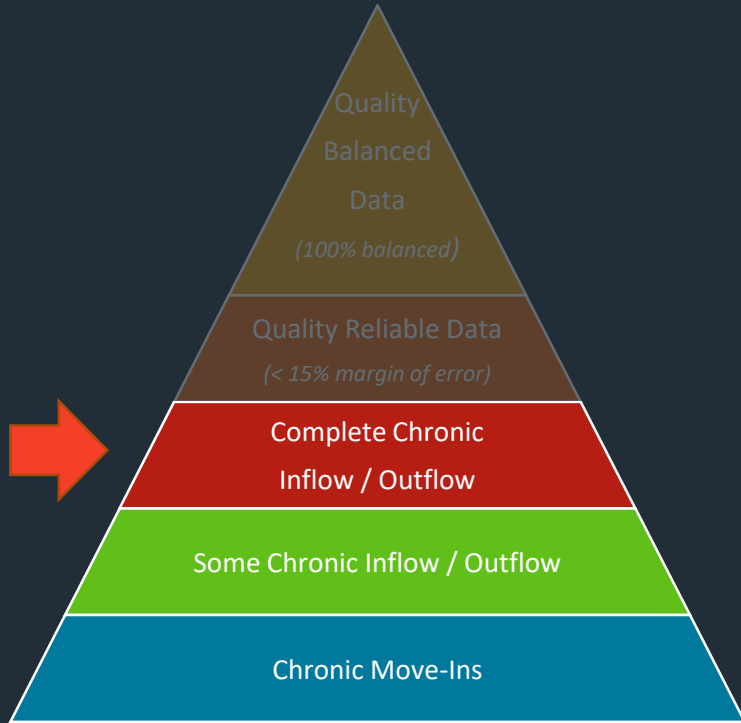

## Submitting

- Three consecutive months of data submitted meeting this specific definition.
- Data cannot be all zeroes.
- If submitting bulk reports, the report must be split into individual months in order to achieve title.

## Can this title be lost once achieved?

- No, this title cannot be lost.

# Complete Chronic Inflow / Outflow

## Definition

- All six chronic inflow / outflow data-points must be reported – unless an exception is allowed by 20KHomes team.
- Data must be chronic only.
- Data does not need to be inclusive of their entire chronic population (i.e. can be program or intake specific).

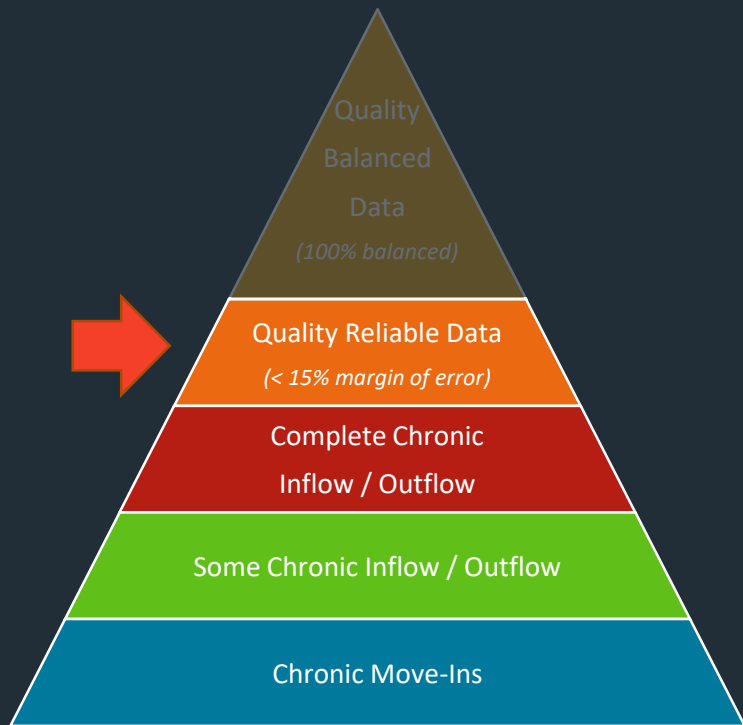

## Submitting

- Three consecutive months of data submitted meeting this specific definition.
- Data cannot be all zeroes.
- If submitting bulk reports, the report must be split into individual months in order to achieve title.

## Can this title be lost once achieved?

- No, this title cannot be lost.

# Quality Reliable Data

## Definition

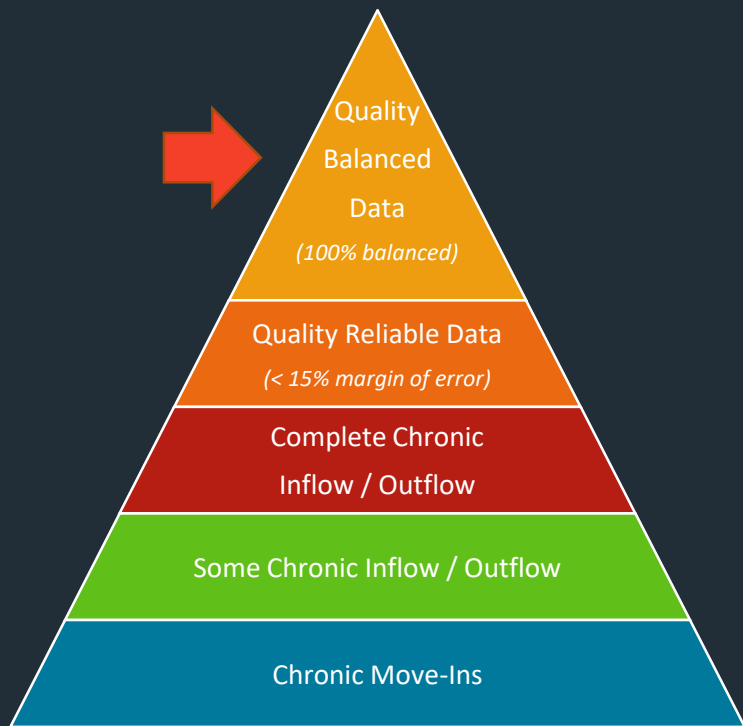

- Inflow / Outflow data must be within the 15% margin of error threshold for reliable data.
- Applies only to those with *Quality By-Name List*.
- All six chronic inflow / outflow data-points must be reported – unless an exception is allowed by 20KHomes team.
- Data must be chronic only.
- Data must be reflective of 90% of all known chronic population.

## Submitting

- Three consecutive months of data submitted meeting this specific definition.
- Data cannot be all zeroes.
- If submitting bulk reports, the report must be split into individual months in order to achieve title.

## Can this title be lost once achieved?

- Yes, if a community is no longer in the reliability threshold of less than 15% margin of error, they will move down to *Complete Chronic Inflow / Outflow*. They cannot be moved to a level lower than *Complete Chronic Inflow / Outflow*.

# Quality Balanced Data

## Definition.

- Inflow / Outflow data must be perfectly balanced (100% balanced or 0% margin of error).
- Applies only to those with *Quality By-Name List*.
- All six chronic inflow / outflow data-points must be reported – unless an exception is allowed by 20KHomes team.
- Data must be chronic only.
- Data must be reflective of 90% of all known chronic population.

## Submitting

- Three consecutive months of data submitted meeting this specific definition.
- Data cannot be all zeroes.
- If submitting bulk reports, the report must be split into individual months in order to achieve title.

## Can this title be lost once achieved?

- Yes, if a community no longer has perfectly balanced data, they can either move down to *Reliable Data* (if they are within the 15% margin of error threshold) or *Complete Chronic Inflow / Outflow* (if they are no longer within the 15% margin of error). They cannot be moved to a level lower than *Complete Chronic Inflow / Outflow*.

# Quality By-Name List

# Released New BNL Scorecard 2.0 – Dec 2018

## COMMUNITY PARTICIPATION & COVERAGE

1. Maximize provider participation
2. Reach unsheltered homeless
3. List all known homeless

## POLICIES & PROCEDURES

4. Inactive policy
5. Track without full assessment
6. Timely/accurate data updates

## DATA INFRASTRUCTURE

7. Unique identifier
8. Track populations & changes over time
9. Track inflow
10. Track key connections at inflow
11. Track homeless status and outflow
12. Track time on list

**Blue – basic – out of 11**      **Orange – advanced – out of 12**

# What is Now Required for a Quality By-Name List

## 1. Qualitative: BNL Scorecard

- Basic Quality BNL Scorecard 2.0 score – 11/11
- Completed Scorecard Worksheet – with explanation in notes
- Completed Provider Participation Worksheet

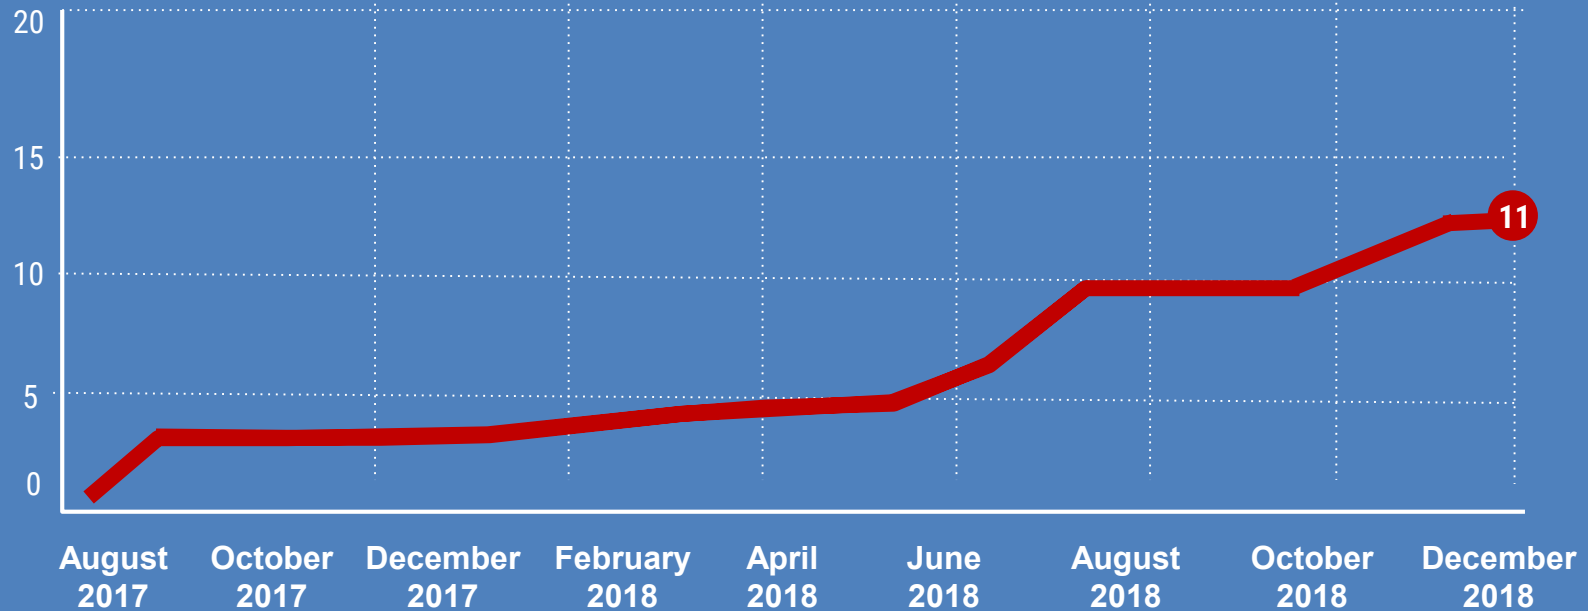

## 2. Quantitative: Data Reliability

- 4 months full data
- 3 months balanced with no more than 15% margin of error
- Set chronic active homeless baseline

# 20KHomes

## By-Name List Revolution

# Communities Who Have Achieved a Quality By- Name List

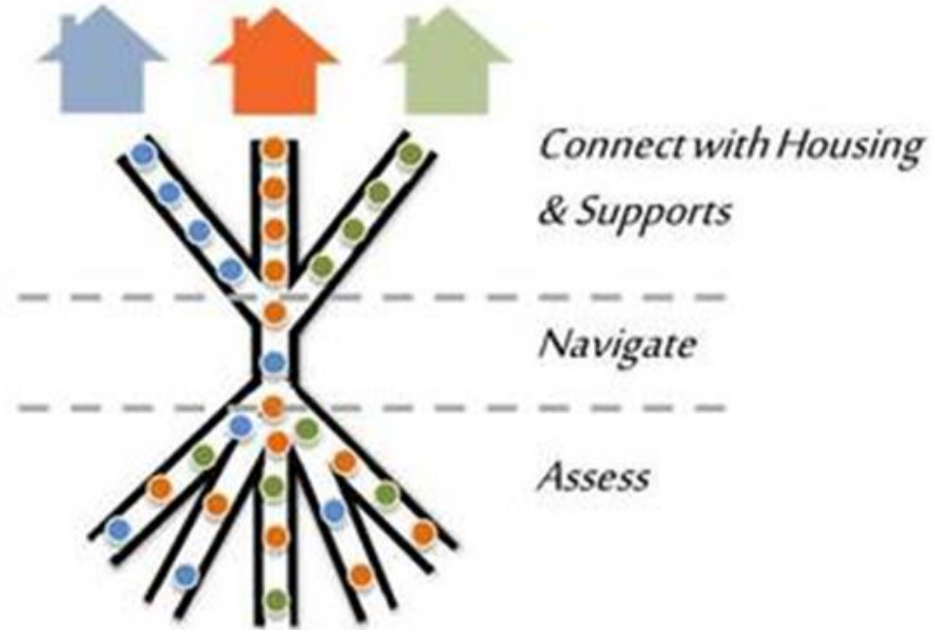

- Chatham-Kent
- Edmonton
- Guelph-Wellington
- Hamilton
- **Kawartha-Haliburton**
- Lanark (youth)
- **Medicine Hat**
- Ottawa
- Peel Region
- Waterloo Region
- Windsor

# Key BNL Scorecard 2.0 Resources

- [BNL Scorecard 2.0 Guide](#) - New
- [BNL Scorecard 2.0 Worksheet & Provider Participation Inventory](#) (for BNL Scorecard Question #1) - New
- [BNL Scorecard Group Exercises](#)
- [Coordinate Outreach Coverage – Key Considerations, Tips & Resources](#) (for BNL Scorecard Question #2)
- [Inactivity Policy – Key Considerations and Examples](#) (for #4)
- [Data Balancing Workbook](#) (walks you through the six key BNL data points and provides a “sandbox” to test your data to ensure it is balanced) - New
- Five Sample Excel Spreadsheet Templates ([By-Name List Page](#))

# Coordinated Access Systems

# Current Coordinated Access System Scorecard

## Management & System Leadership

1. Governing body
2. Document policies/procedures
3. Annual evaluation
4. Documented/trained assessors

## Access

5. Full coverage
6. Outreach protocol
7. After hours emergency
8. Marketing
9. Diversion/prevention
10. Safety

## Assessment & Prioritization

11. Standardized assessment
12. Prioritization policy

## Referral

13. Uniform referral
14. Vacancies according to prioritization
15. Vacancy updates
16. Housing navigation support
17. Reduce barriers
18. Client choice
19. Agency Accountability

## Data and Case Conferencing

20. Privacy and security
21. Client-centred assessment
22. Chronic homeless prevention
23. Case conferencing

# CAS Scorecard Self-Assessment Scores

A total of 21/38 communities are scoring 13+:

- 1 community has scored themselves 23/23
- 6 communities have scored themselves 20-22/23
- 14 communities have scored themselves 13-19/23

## Webinar - Review of CAS Scorecards with Medicine Hat and Kingston

- [Coordinated Access System Scorecard – January 21, 2019](#) (just the [PowerPoint](#))

## Basic Elements:

1. Most basic criteria/definition of Coordinated Access
2. First things to focus on when implementing CAS
3. ESDC Reaching Home Requirements

## Advanced Elements:

- Continuous Improvement – Promising and Best Practices

# By-Name List Scorecard and CAS Scorecard

## BNL SCORECARD

- Focussed on having a quality list to know all people experiencing homelessness
- 2 purposes – master list for overall system understanding which feeds CAS sub-list(s)
- **BNL Scorecard focus is on adding to and updating the BNL and quality of data**

## Coordinated Access System

## CAS SCORECARD

- Focussed on process of getting the right people to the right housing intervention
- **CAS Scorecard is focussed on effective CAS operation and matching housing interventions to people on the CAS list**

# Process and Timing for Updating the CAS Scorecard

- Draft new CAS Scorecard – March/April
- Consult on Draft - April
- Test new CAS Scorecard - May
- Finalize - June
- Release - July

# **Reducing Chronic Homelessness**

# Measuring Reductions

Three ways 20KHomes reports publicly on reductions:

1. Below Baseline (3 or more consecutive months at 5%-15% below)

# of chronic active homeless during baseline month	% below baseline for three months
500 +	5%
50 – 499	10%
1 – 49	15%

2. 50% Reduction Below Baseline – aligned with federal Reaching Home Goal
3. Final Kilometer (or Final Mile or Home Stretch – TBD)

# Communities Reduced Over Last Quarter

**1.**

Below Baseline  
On Chronic  
Homelessness:  
(First Milestone)

**9** HAVE QUALITY  
BASELINE MONTH

**2** COMMUNITIES REDUCED  
BELOW BASELINE

**2.**

50% Below  
Baseline on  
Chronic  
Homelessness  
(Reaching  
Home Goal)

**1**

COMMUNITY  
REDUCED 50%

**3.**

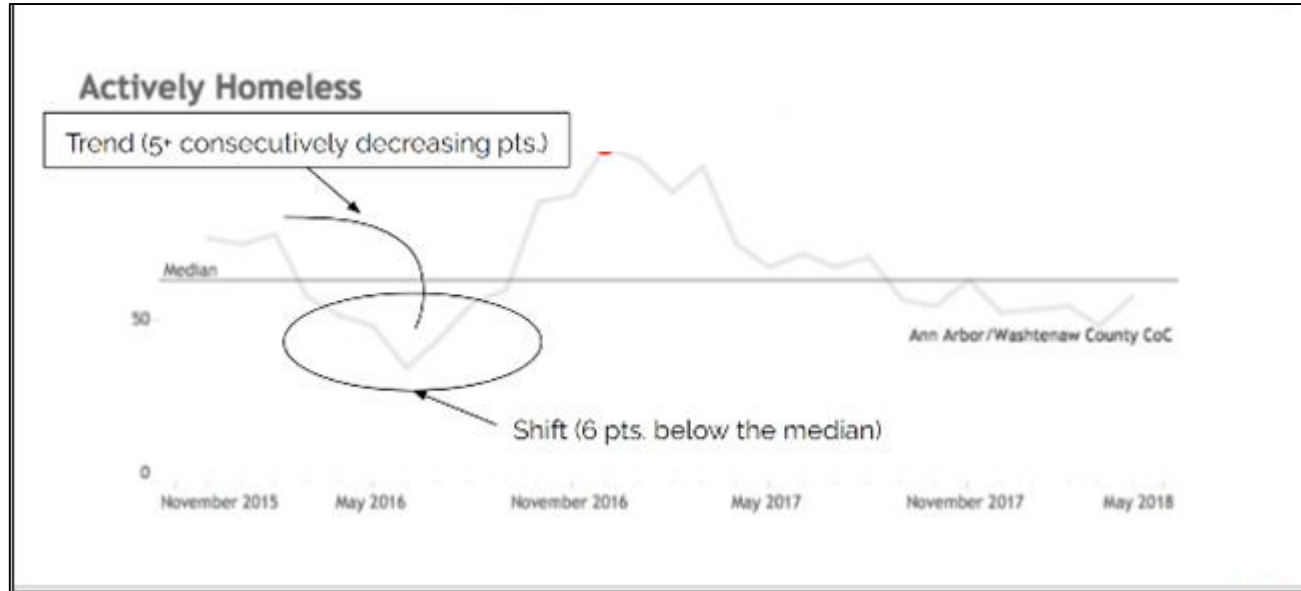

Final Kilometer:  
Getting Close to  
Functional Zero  
Chronic Homelessness

**2**

COMMUNITIES  
IN FINAL KILOMETER

# Still Using Run Chart Shifts and Trends to Measure Improvement

**2**

**COMMUNITY  
WITH 10 MONTHS  
DATA SINCE BASELINE**

**1**

**COMMUNITY ON TRACK  
FOR A REDUCE  
SHIFT OR TREND**

**0**

**COMMUNITIES  
THAT HAVE HAD A REDUCE  
SHIFT OR TREND**

# Upcoming Work in Reduce

- Updating Reduce Description and Q&A
  - Including Final Kilometer (or Final Mile or Home Stretch):
    - Potential to reach functional zero within 6-12 months
    - Proximity to the functional zero threshold (three or less active chronic homeless)
    - Active and engaged with 20KHomes supports
    - High functioning local leadership team
    - Leaders with the interest and will to push towards Functional Zero in the immediate term.
- Create new separate document on Run Charts
- Testing approaches with communities in the Final Kilometer
- Testing “Command Centre” approach

# The Last Kilometer *Theory*

1.	Assess interest and will with core local leaders
2.	Deep dive to assess remaining challenges and needed strategies to reach functional zero
3.	Offer additional support from the 20KHomes Team
4.	Convene and connect local leaders
5.	Further refine challenges and opportunities for external support
6.	Local teams refine strategy at Learning Session
7.	Identify partners to provide additional external support
8.	Execute strategy with coordinated support
9.	Review data and adjust strategy

# Other New Items Over The Last Quarter

# 20KHomes Collaborative Launch

First in-person  
Learning Session  
in Hamilton, ON  
November 7-8,  
2018

First Virtual Learning Session held  
through Zoom on November 29, 2018

# What's New Over The Last Quarter

## New Materials Released:

- [Change Package website](#) (for communities participating in the Collaborative)
- By-Name List Scorecard 2.0 and related materials ([By-Name List page](#))
- By Name Privacy, Consent and Data Sharing – New Section ([By-Name List page](#))
- Program Areas - [Prevention Page](#)
- [Data Balancing Workbook](#)

## New Webinars:

- [By-Name List Scorecard 2.0 and Tableau Trackers – December 4, 2018](#) (just the [PowerPoint](#))
- [Coordinated Access System Scorecard – January 21, 2019](#) (just the [PowerPoint](#))

## New Blogs:

- [Bright Spot: Kawartha Lakes & County of Haliburton on track to functional zero](#)
- [20,000 Homes Campaign communities close in on goal to house 20,000 of Canada's most vulnerable homeless people.](#)

# Sneak Peak What Else Is Coming Up

# 20KHomes working towards...

## PROCESS TO ASSESS, PRIORTIZE AND MATCH

### DEMAND DATA

#### BNL SCORECARD

- Focussed on having a quality list to know all people experiencing homelessness
- 2 purposes – master list for overall system understanding which feeds CAS sub-list(s)
- **BNL Scorecard focus is on adding to and updating the BNL and quality of data**

### SUPPLY DATA

#### HOUSING RESOURCE LIST (HRL) SCORECARD

- Focussed on having a quality list of all housing interventions in a community
- **HRL Scorecard to be focussed on the quality of mapping, and managing of housing interventions data**

#### CAS SCORECARD

# Call for New Communities – Spring 2019

- Self-Directed option ends June 2019
- Call for up to 8 communities to join Collaborative
  - Can be current Self-Directed community or new
  - Will be releasing the call sometime in the spring
  - Will be making decisions over the summer
  - Will begin on-boarding new communities in the fall
- Materials continue to be available on public site for any community to use.
- CAEH Training and Technical Assistance (TTA) available to those communities not participating in the Campaign

Questions?

# Thank You
