# The Whole Process – in HIFIS 3

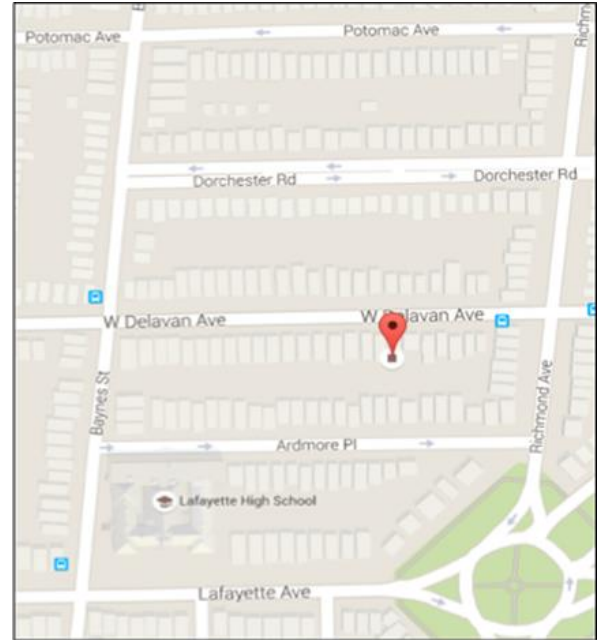

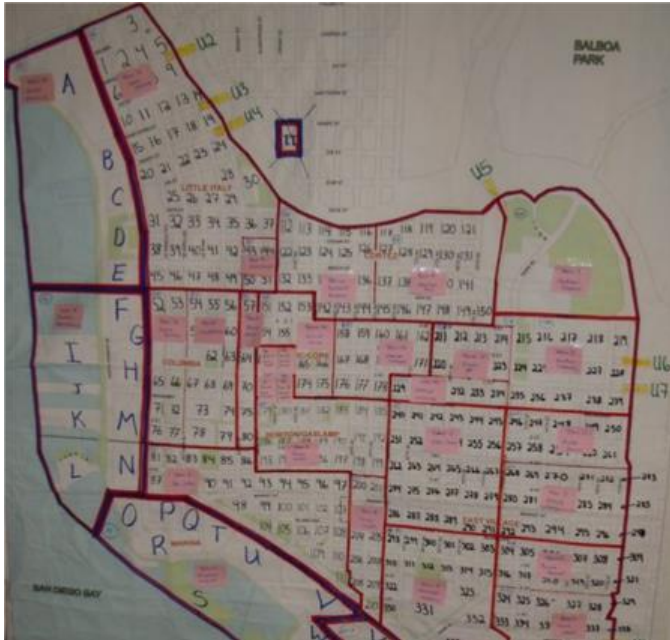

# The PiT Sub-Menu

# Mapping Survey Locations

- You will need to determine **when** and **where** you will survey
- **Strongly recommend** at least one session of early morning street surveying from **6:00 AM – 8:00 AM**
  - No question as to whether someone is homeless
  - As people are getting up for their day to access services
  - Before business owners begin moving people along
  - Most sober point in the day for active substance users
- Use **Google Maps** to plan your street surveying locations
- Use staff in the service sector to help **determine other locations** and **times** for surveying
  - Shelters
  - Drop-in Centers
  - Hospitals

# Mapping Survey Locations

[Webinar on Sampling](#) – 26:40- min to 42 min
